## **OBJECTIVE:**

To acquire a Mobile Application Developer Position at Bally's Interactive to present my skills and experience in this field.

## **HIGHLIGHTS OF QUALIFICATIONS:**

- Demonstrated ability to work collaboratively within a team or individually to meet specific goals using a number of programming and mobile development languages
- Showcased proficiency in building, testing and modifying software codes for programs related to application development
- Proved ability to detect and capitalize on technical issues located within code using analytical skills
- Demonstrated ability to communicate and share information discovered with team members
- Shown adaptability and open-mindedness to further gain insight on the task
- Ability to learn quickly and effectively

## **TECHNICAL SKILLS:**

- Expert in programming languages for mobile development such as Java, C#, C++ and JavaScript
- Used various IDEs such as Visual Studio Code to capitalize on modifications and troubleshooting skills
- Proficient in mobile development languages such as Swift and Kotlin
- Experience with cross-platform mobile development frameworks such as React Native
- Handled databases such as SQLite to interact with specific data required
- Capable of diving into specific libraries within programming languages to interpret and utilize data retrieved

## **EDUCATION:**

**Computer Programming & Analysis, Diploma** **Jan 2022 - Present**  
**George Brown College, Toronto, ON**

- Designed an interactive booking reservation system using C# to demonstrate understanding of handling and retrieving data from a database as well as utilizing user-friendly interfaces for a better user experience
- Created several projects using the IDE named 'IntelliJ IDEA' to provide an understanding of Java programming, showing skills of object-oriented design, data structures and application development
- Developed a small mobile project using Kotlin incorporating features such as user-authentication and real-time updates for a more efficient system

## **PROFESSIONAL EXPERIENCE:**

### **Customer Service**

**Oct 2017 to Present**

#### **Mcdonalds, Toronto, ON**

- Recognized as “Employee of the month” twice for outstanding performance and willingness to help fellow employees
- Promoted to an Assistant Manager-like role, demonstrating proficiency in team cooperation and decision-making in order for restaurant to function efficiently
- Participated in several team meetings with management discussing potential formulas in creating a more successful environment, addressing challenges and brainstorming new ideas for store to achieve desired outcomes
- Shown versatility and selflessness to assist any station within the restaurant in order to achieve required timer goals effectively and ensure customer satisfaction
